

## **ELECTION REPORT.**

### **GENERAL COMMENTS ON SENATORIAL AND CONGRESSIONAL RACES.**

#### **SENATORS RACE.**

All the world is sad and dreary To the friends of Jeems McCreary.

—Cynthiana Democrat.

As we go to press it appears that McCreary's majority may reach 25,000.—Ewing Enquirer, Nov. 8.

Beckham made large gains in Fleming during the three or four days, preceding the election and carried the county by about 450 votes. Had the election been ten days earlier, it seemed then that this county would have gone for McCreary by fully two hundred.—Ewing Enquirer, Nov. 8.

The supporters of the Governor were somewhat depressed when the reports from Louisville gave the city to Senator McCreary by not less than 3,000 and Lexington reported a McCreary majority of 1,400 and Covington came along with three to one in his favor, it was the impression that it was all over but the shouting.—Danville Advocate.

Mayor Combs, of Lexington, who worked hard for Governor Beckham, said: "There is nothing in the talk about padded election returns. The vote was counted as cast. If there had been intention or design to do any stealing for Beckham in this election, Fayette county would not have given McCreary the majority it did. This fact should put at rest all doubt as to an honest count."

The result of the primary illustrates the uncertainties of politics. Governor Beckham's friends were confident of carrying the city of Lexington and the city of Louisville by substantial majorities. It was the general belief of those opposed to Governor Beckham that the country districts would vote for Senator McCreary, whereas they seemed to have voted more strongly for Governor Beckham than the cities in which his friends had absolute control of the machine.

In the Senatorial race Beckham seems to have won over McCreary by something like 10,000. This victory means that the Louisville barrooms and distilleries no longer govern the politics of Kentucky. They had as their candidate a man eminent, popular and of fine character, and in spite of his commanding position the taint of the support of the liquor interests was too much for him. The liquor interests of Louisville, Lexington and other large cities fought Gov. Beckham to a finish but the temperance people carried the day.—Times Democrat, Flemingsburg.

#### **CONGRESSIONAL RACE.**

The result of the Congressional race in Montgomery county was not unexpected. It is always best to "tote fair" in conventions and stick to any agreement made.

It is a safe bet that there will be no more Democratic primaries on the regular election day.

The fate of Frank Hopkins should be a warning to all that the people of Kentucky will no longer stand for fraud or trickery in securing nominations. The nominees of the State primary must show a clear title or there will be trouble in the land.—The Gazette, (R).

#### **BREATHITT COUNTY.**

Breathitt gave Langley a majority of 311 over Hopkins for Congress. It was the most interesting campaign in the history of Breathitt county. In Jackson, precinct No. 2, which had heretofore gone nearly a hundred Democratic, the returns gave 11 majority for Hopkins. Ed Callahan's precinct, a banner Democratic precinct of the county, gave Langley 29 majority.

Official reports from all counties in the Tenth congressional district are as follows: For Langley, majorities, Lee, 318; Estill, 275; Johnson, 1,151; Martin, 604; Magoffin, 663; Breathitt, 329; Pike,

## **The Exquisite Garment Models For Fall. They're All Ready.**

Charming indeed, with an abundance of style with every new design thought thrown in.

These garments represent the masterstroke of high class tailoring, free from the sweat shops--made in well lighted--well ventilated establishments by men tailors well up in the art of ideal garment-making.

Perfection, Yes! From the button-holes to the inner linings. These are not the products of ill paid labor, but worthy Fall Suits, and Jackets and Cloaks. Skirts that rank among the "best" in one of the finest tailoring shops in the country.

Notably among the New Fall Creations is the Price Chap--a sturdy little suit for women, with just enough style in the make-up to fascinate the careful dresser. Then comes the Pony Jacket Suits--chic and embodying the correct principles which go to make up the perfect costumes. And there's a score of other good creations ready and willing to pass the most careful inspection.

Jackets in the trim fall shapes and coats of the long and gracefully flowing styles. Raincoats of superb styles. Skirts in the fashion formed pleating effects.

And all priced--surprisingly low priced

Powell county gives Beckham 199 majority; Hager, 185; Hendrick, 9; Winfrey, 97; Newman, 47.

#### **MARTIN COUNTY.**

No primary in Martin county. Ballots failed to arrive.

The Democrats of Kentucky must take counsel and prepare themselves for a contest which will be vigorous, aggressive, and unceasing if we wish to prevent Kentucky from having the misfortune of becoming Republican like West Virginia.—Courier-Journal.

In West Virginia, every Congressman is a Republican.

The Democrats carried Oklahoma and will write State Constitution.

A gain of one Congressman by the Democrats is the only change in Wisconsin.

Indiana Democrats elected Congressmen in three districts making a gain of two members.

The Democrats have carried Missouri by a plurality upward of 7,000, electing the entire State ticket and twelve out of sixteen Congressmen.

Gov. John A. Johnson, Democrat, has been re-elected Governor of Minnesota, by at least 40,000. The remainder of the State ticket is Republican.

Democrats have gained two Congressmen in Illinois and the Republican State ticket has been elected by a plurality of from 100,000 to 125,000.

Edward S. Stuart, Republican, has been elected Governor of Pennsylvania over Lewis Emery, Jr., Fusionist, by a majority approximating 100,000.

The Democrats will have the New Jersey House of Assembly 31 to 29, and the Legislature will have a Republican majority on joint ballot of seven. The Democrats have elected four Congressmen, a gain of three.

A special from Harrodsburg says: "The ballots and ballot boxes for this precinct were stolen shortly before midnight Monday. A man taking them from the printing office to the polling place stopped at a saloon, and when he was ready to start again he found that the box and ballots had disappeared. Great excitement followed. Colonel Jack Chinn immediately took steps to secure another supply of ballots.

Illinois went Republican by over 100,000, the vote for Smuts, for State Treasurer, footing about 120,000. Chicago gave the Republican State ticket a plurality of over 50,000. The Republicans lost 4 Congressional districts, making a gain of four for the Democrats and giving them five instead of one in the Illinois Congressional delegation.

#### **Women Working in Fields of Oklahoma.**

The question of labor has been more perplexing to Oklahoma farmers during the crop season just ending than at any other time since the opening of the country. Every farmer has had more work than he could get done with the men he could hire. On one farm the wife was running the wheat drill and on another the wife was running a hay rake. A little girl was harrowing with four horses, the father was cutting Kaffir corn, assisted by his wife, who was using the knife with as much skill and rapidity as her more muscular partner. The cotton fields have been dotted with sunbonnets. Half or more of the milking and cream hauling is done by the women and the care of the chickens and other barnyard fowls falls on them. Many women go into the cornfields and help their husbands husk corn, and they are generally handy in any kind of work. While in many cases the farmer can afford to hire help, and wants it badly, none could be found, and in order to save the crops the wives and daughters of the household "turned in and made a hand."

## **Rheumatic Folks!**

### **Are You Sure Your Kidneys are Well?**

Many rheumatic attacks are due to uric acid in the blood. But the duty of the kidneys is to remove all uric acid from the blood. Its presence there shows the kidneys are inactive. Don't dally with "uric acid solvents." You might go on till doomsday with them, but until you cure the kidneys you will never get well. Doan's Kidney Pills not only remove uric acid, but cure the kidneys and then all danger from uric acid is ended. There is a testimony to prove it:

John Black, living at corner of Clay and Elm streets, Mt. Sterling, Ky., says: "Doan's Kidney Pills are a good medicine and I have no hesitation in saying that if any one who may be suffering with any of the complaints for which they are recommended will give them a good fair trial they will be benefited. For some years I was subject to attacks of rheumatism or lumbago in my hips, legs and in my shoulders. At times the pain would be so severe in these parts that I could scarcely be able to get around, and there was also a difficulty with the kidney secretions which was almost constant irritation. Hearing of Doan's Kidney Pills I procured a box at F. C. Duerson's drug store, and although I did not give them a fair trial, I can say that I think highly of this remedy."

#### **CATARH SEASON.**

### **Disease Most Prevalent in the Fall Months. Simple Way to Cure.**

At the first warning of catarrh, one should begin using Hyomei. There is no stomach dosing with this treatment. The medication of its healing oils and balsams is taken in with the air you breathe so that it reaches the most remote cells of the nose, throat and lungs, killing the catarrh germs wherever present, and soothing all irritations in the mucous membrane.

You run no risk in paying W. S. Lloyd \$1 for a Hyomei outfit, as he gives his personal guarantee that if the remedy does not afford relief, your money will be refunded at once. Extra bottles of Hyomei, if needed, cost but 50 cents, making it the most economical treatment for catarrh as well as the only one that is sold on guarantee. 16-18.

### FAIR ELECTION POSSIBLE.

We clip this editorial from the Courier Journal:

Here in Louisville good men, good Citizens, all honest party men whether they be Republicans or Democrats, have reason to feel encouraged and to rejoice. It has been exemplified that a perfectly fair election is possible. That is the best any of us should desire.

Before another year rolls around there ought to be organized such a nonpartisan body of citizens as will prove strong enough to compel all elections to be honest, and to give both parties absolute assurance of the rights of each. For ten years we have seen the black flag wave above our voting places, each party doing its uttermost to get the better of the other. Quarter has rarely been asked or given. We have had a state of quasi-civil war. To the Democrats, not to the Republicans, do we owe the order and fairness of Tuesday's election, but this is likely to be short-lived unless good Republicans join good Democrats in good faith to force it in the future.

### "PUT THE LID ON."

It is most fortunate that Governor Beckham won his nomination outside the big and little cities, or the charges of unfairness and fraud might be made. The cities of Louisville, Lexington, Covington, Newport, Paducah, Henderson, and all such went against the Governor good and strong, yet he carried 90 out of the 119 counties in the State, and 7 of the 11 Congressional districts. Kentucky elects four Republican Congressmen.

Governor Beckham is a wonder—and he will be the next United States Senator. We expect him to shortly call the Legislature together and ask for power to "put on the lid" and keep it on. If he does this latter thing Kentucky will go Democratic a hundred thousand next year.—Carlisle Mercury.

It seems that the people of Nicholas did not take much stock in the untruthful stories told about Governor Beckham being intoxicated while in this city.—Carlisle Mercury.

### CONSIDER WELL.

Now that the election is over and the people have time to think of something other than politics, we beg leave to offer for the consideration of the public and especially our City Council, a few suggestions regarding saloon licenses next year. The City Council refused to increase the license from \$500 to a \$1,000. The matter was disposed of rather hurriedly and we fear, without due consideration; hence it is the hope of the writer that this matter be reconsidered and passed favorably upon. We now have eleven saloons. The revenue thus produced will amount to \$5,500 if all licenses are renewed. If the license was fixed at \$1,000, at least one half of the present holders of licenses, would pay the increase. Looking at the proposition from a pecuniary stand-point only, the city would sustain no financial loss by the proposed increase. No right-thinking man can gainsay the statement that such a course would have a very purifying effect upon our city; the dives would go and the people would be given partial relief at least. We hope that our City Fathers before the first of the year, will heed the wishes of some of our citizenship and approve the ordinance offered heretofore by Councilman Wade. It should ever be born in mind that only a few weeks ago, the temperance people carried two out of four wards and only lacked a few votes of carrying the city as a whole.

This magnificent showing was made, in spite of the effective use of a large corruption fund, furnished by the distilleries and breweries of the State. In the election just over, the influence of the temperance vote strongly manifested itself. In this demand for high license, the temperance people are strengthened by a strong element of our citizenship that oppose local option, but favor high license and strict police protection. It will thus be readily seen that this idea is favored by a majority of our people. We will suggest in the most kindly spirit, that public officials, as well as men aspiring to political perfection, had best not ignore the wishes and opinions of so large a percentage of our citizenship.

Whether the citizens living in the first and fourth wards were temperance was successful, notwithstanding the decision of the contest board, upon the contest gotten up in the fourth ward, will test the right of anyone to sell intoxicants therein, remains to be seen, but in the mean time City Fathers consult your neighbors and your friends, consider carefully this proposition of increasing saloon licenses and make up your minds to stand for what your consciences will tell you is right. You will thus rid our City of the dives and be complying with the prayers of many good women and God fearing men in our midst.

The Democrats of Montgomery county should be ashamed of themselves. They sulked Tuesday like spoiled children. This does not apply to all of them, but it does to a great many of them. It will not help the aspirations of a Montgomery county man, should one of them ask for anything at the hands of the Democrats of the Tenth District.—Winchester Democrat.

### THE PRIMARY.

The so-called primary election last Tuesday was the greatest farce ever enacted in Breathitt county. Although the ballots were here several days before the election, none were sent to Lost Creek, Spring Fork, Elliottsville, or Buck Horn which are the four largest Democratic precincts in the county. Ever since we can remember these four precincts were relied on to give whatever Democratic majority Breathitt county could return and before the era of the machine rule in this county they were almost solidly Democratic. These precincts include all of the voters of Troublesome creek and a part of the North Fork of the Kentucky river and almost all of Quicksand creek and comprise more than one-third of the area of Breathitt county, yet they were wholly disfranchised in this primary because they would have been liable to cast a good majority of their votes for McCreary and Hays. No list of officers was ever published and the chairman told us on Sunday evening less than two days before the election that he had no list. We have not seen any of the returns from the primary, but we are told that the votes cast were almost solidly for Beckham and Hager and that their majorities far exceeded the total vote cast for Hopkins the same day. We are told that 95 votes were cast in Jackson precinct No. 2, 94 of which were stenciled exactly alike for Beckham, Hager and the minor officers. Who believes that such a thing could have happened had the election been carried out legally. We don't know who were the officers in the primary as there were none where we were, but we hope that they will be able to explain how all the ballots cast were so nearly alike, and we hope that some one will be able to explain how so many men who were for McCreary changed their minds so suddenly.

We had hoped all along that this primary would be conducted so fairly that no one could have any cause for complaint but as it is not so we see why any Democrat should feel himself obligated to vote for a nominee he had no voice in selecting.—Breathitt News Nov. 9.

The above, including headlines, is from the Breathitt County News edited by J. Wise Haggins. We have known Mr Haggins for many years and have always highly regarded him. We have no grounds for questioning the correctness of what he says, or his sincerity. He has been criticised by some and his democracy doubted because he has not quietly submitted to everything that has happened in Breathitt politics. Whether or not many such reports will come from over the state remains to be seen. We hope not.

Men are to learn that a square deal in politics is as obligatory as a square deal in business. Temporary ascendancy by questionable means will react to the detriment of individual honor and state or national integrity.

All men regardless of party ties should and must learn that truth, fair dealing, and keeping of covenants lie at the foundation of our institutions.

NEVER DID DEFAUD.

Paul O. Stensland, when sentenced to fourteen years in the penitentiary, made this explanation: "Your honor, I had no dishonest intentions. I never did defraud anyone. I only went into real estate speculations which did not turn out as I wished."

Church Social.

The First Presbyterian Church will on Tuesday evening, Nov. 27, 1906, have a church social at the Parsonage at 7 o'clock. Every member of the church and congregation is most cordially invited and expected. For the purpose of installing gas in the Parsonage and Church, there will be a free will offering of \$1.00 expected from everyone to be used for above good purpose. The Woman's Missionary Society will furnish refreshments to all who attend without charge. Remember all members of congregation as well as the entire membership of the church are expected to attend and contribute their dollar to make the home of the Pastor more comfortable by the use of natural gas. A special program will be arranged for the entertainment on that evening.

Some candidates before the late Primary were afraid to send out a card without the union label. The County printers got little of the work, but next year when the hard work of the campaign is to be done free the Country editor will be expected to do it. The country newspapers are in a position to keep hands off if they want to.

### STATE PRIMARY.

The Winchester Democrat says: We hope we have seen the last State Democratic Primary. The Music Hall Convention was bad enough, but it was not as bad as a State primary. In the first place a convention is soon over with and the results are sooner combined or forgotten, if they are not satisfactory. This thing of Democratic candidates for the same office abusing each other for months is bound to hurt the party in the long run.

We have no doubt that the State Democratic primary had much to do with the Democratic losses in Kentucky Tuesday. In the first place the energies of the Democratic leaders were divided and in many places more attention was paid to the primary than to the general election.

Inasmuch as Senator McCreary carried Louisville the editor of the Sentinel-Democrat can now say whether or not he thinks the vote of the city was stolen.

What about Louisville, Lexington, Covington and Paducah going against Gov. Beckham who antagonized the saloon keepers and distillers?

# A Communication.

We have received the following:  
 CAMARON, KY., Nov. 10, '06.  
 Dear Bro. Trimble:—Wish you  
 would please publish the enclosed  
 clipping for the benefit of the com-  
 munity at large and oblige,  
 Yours truly,

The clipping referred to is an  
 article of more than a column in  
 length in regard to a faithless hus-  
 band (a preacher), the killing of  
 his wife, his commitment to pris-  
 on, parole and recommitment.  
 Previous to receipt of this letter  
 we had seen headlines of the sen-  
 sational article and saw enough of  
 it to know that it was not what we  
 wanted for the Advocate and  
 passed it by. After we received  
 the letter from Mr. \_\_\_\_\_, who is  
 so solicitous about "the benefit"  
 of the community at large, we  
 read the article. We now know  
 that this detailed crime is not  
 what the community ought to  
 know. We apologize for thus  
 calling attention to it. Probably  
 we do not understand the motive  
 which prompted our neighbor to  
 write. If a preacher is a prosti-  
 tute, or thief, or other law breaker  
 he deserves severer punishment  
 than other men, because he is an  
 example for a light to, a leader of  
 the people among whom he lives  
 and whom he influences. So far  
 as human law is concerned Mr.  
 Hinshaw (the preacher) deserves  
 the punishment inflicted. We  
 hope he will repent, for if he does  
 not hell with its torments will be  
 his.

Man or woman, boy or girl,  
 whether you live in the country,  
 village, town or city, we want you  
 to work for us. Send us your  
 name and address and we will ex-  
 plain a plan whereby you receive a  
 steady income, and will, in addi-  
 tion, give you handsome and valu-  
 able premiums.

Aracade Mfg. Co., Pekin, Ill.

## OPPOSE CAMMACK BILL

The Kentucky Brewers' Associa-  
 tion Against it.

In strong resolutions unanimously  
 adopted, the Kentucky Brewers'  
 Association, in session at Lexing-  
 ton, Thursday, put itself on record  
 as opposed to the Cammack unit  
 local option bill, passed at the re-  
 cent session of the Legislature.  
 These resolutions declare as fol-  
 lows:

### THE RESOLUTIONS.

Resolved, That as manufacturers  
 of a legitimate, wholesome food  
 product, we protest against the  
 Cammack county unit law, which  
 assumes that the mildest beer, is  
 as dangerous as the strongest al-  
 coholic liquors, and proceeding on  
 that false assumption attempts to  
 subject the sale and use of beer to  
 regulations that are unequal, un-  
 just and unconstitutional, upon the  
 ground that the "police power of  
 the State" can be stretched to cover  
 such tyrannical exercise of govern-  
 ment power.

We assert that local option and  
 all other forms of prohibition fail  
 utterly to reduce the curse of in-  
 temperance, but only substitute  
 the unlicensed for the licensed sale.

Resolved, therefore, That we  
 protest against the adoption of lo-  
 cal option by counties as being  
 purely vindictive and destructive,  
 unfair and unjust, and without  
 any formative influence for the  
 good of society, but really and in  
 fact destructive of its alleged ob-  
 ject by creating illicit selling  
 places, publicly in the form of  
 drug stores, secretly in the form of  
 "speakeasys" so-called, with all  
 the attendant evils and disturban-  
 ces and disrespect for law as wit-  
 nessed everywhere in Maine and  
 Kansas, wherever prohibition ob-  
 tains either by counties or throug-  
 out the State. "Of course they  
 are opposed."

### Think A Moment.

Don't you want an elegant this  
 season's Lady's Rain Coat, at  
 actual cost? Then go to Hazelrigg's.  
 Their entire stock of these service-  
 able garments is being offered at

 many and is offering them in 'th's  
 way to close them out. 18-34

## OF Jacks and Jennets.

**Tuesday, Nov. 20**

At my place five miles south of Danville in the Shelby City neighborhood, I will offer at public auction my entire holdings of Jack stock consisting of

**32 Jacks and 34 Jennets.**

Also ten choice Mules and about the same number of Horses at the same time and place. Among the horses to be offered is the handsome young saddle stallion, Reid's Gold Dust, a good excellent brood mare. Poor health compels me to quit the business, which I have been constantly engaged in for the past twenty years. It is not boastful to say that during such a long period I have acquired a high standard of stock which will be profitable as an investment for any buyer. Mules were never known to be so high. Buy a Jack and engage in the leading branch of stock raising

### Reasons Why Whiskey House Failed.

W. P. Strader, doing a general wholesale whiskey and rectifying business at Lexington under the name of R. S. Strader & Sons, made an assignment to Attorney Hutchinson. There has been no schedule of the assets or the liabilities filed, but it is believed a number of liquor dealers in Cincinnati and other places will be losers in the transaction. Strader gives as his reason that the wave of prohibition through the State has curtailed the business until there is no profit.

D. C. Scott, Avon, Ky., says: "I used Bourbon Hog Cholera Remedy after other remedies had failed and it speedily effected a cure. It has cured several herds in my neighborhood without the loss of a single hog. Sold and guaranteed by W. S. Lloyd."

The most popular young lady in our neighborhood is the one who is equally as good at making bread as she is at playing the piano, and she is an artist at both.

#### The Cod Liver Oil Question.

No one will dispute the curative and strength creating value of cod liver oil. For centuries it has been recognized as the grandest of all healing and body-building agents for wasted human strength and vitality.

Yet, owing to the heavy, greasy oil which envelops the medicinal elements, and which has no value either as a food or medicine, many patients weakened by disease cannot digest it either in its raw form or an emulsion, and others will not take it on account of its disagreeable odor and taste—consequently its value is lost.

Now, the process discovered by two eminent French chemists—Morgues and Gautier—should interest every person in Vinol. For all of the tonic, body-building and curative elements of cod liver oil are now separated from the greasy, useless oil, and given to the people in delicious Vinol.

For this reason it is fast superseding old-fashioned cod liver oil and emulsions.

As a body-builder and strength creator for old people, weak women, delicate children, and after sickness and all pulmonary diseases, it is recommended by over 5,000 of the leading druggists of the United States as the best.

Your money back if it does not do all we claim. W. S. Lloyd, Druggist.

Note—While we are agents for Vinol in Mt. Sterling, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

### Winchester Votes in Favor of New Sewers.

The total vote on the \$40,000 sewerage system in Winchester was as follows: 807 for, and 401 against. As a two-thirds vote was necessary, the issue carried by one vote. The City Council at its regular meeting appointed a sewerage committee composed of the following men: J. L. Weber, J. M. Benton, R. D. Perry, Woodson McCord, J. R. Simpson, W. W. George, Charles E. Bush, John H. Keyes and J. S. Wimm.

The whole matter is now in their hands and they are authorized to contract for and have built the sewerage system. It is contemplated to build seven and one-half miles at the outset.

### Dr. Pierce's Favorite Prescription

Is a powerful, invigorating tonic, imparting health and strength in particular to the organs distinctly feminine. The weak woman needs it to induce health, to cure the whole body gains in health and strength. For weak and sickly women who are "run-down," debilitated, especially for women who work in stores, offices or schools, or sit at the typewriter or sewing machine, or bear heavy household burdens, and for nursing mothers, Dr. Pierce's Favorite Prescription has proven a priceless benefit because of its health-restoring and strength-giving powers.

As a soothing and strengthening nerve tonic, "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea, or St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the womanly organs. It induces refreshing sleep and relieves mental anxiety and despondency.

Cures obstinate cases. "Favorite Prescription" is a positive cure for the most complicated and obstinate cases of "female weakness," painful periods, irregularities, prolapsus or falling of the pelvic organs, weak back, bearing-down sensations, chronic congestion, inflammation and ulceration.

Dr. Pierce's medicines are made from harmless but efficient medical roots found growing in our American forests. The Indian knew of the marvellous restorative value of some of these roots and imparted that knowledge to some of the frontier whites, and gradually some of the more progressive physicians came to test and use them, and ever since they have grown in favor for their superior curative virtues and their safe and harmless qualities.

Your countryman, Dr. Pierce's "Favorite Prescription" is also that famous alterative, the blood purifier and stomach tonic, the "GOLDEN MEDICAL DISCOVERY." Write to Dr. Pierce about your case. He is an experienced physician and will treat your case as confidential and without charge for correspondence. Address him at the "Invalids' Hotel and Surgical Institute, Buffalo, N. Y., which is his chief consulting physician.

At Lexington Attorney Butler Southgate was appointed to act as Commonwealth's Attorney in the absence of Col. John R. Allen who is in Little Rock, Ark., attending in the fight to break the will of the late Dr. O. M. Taylor of that city, who was the father of Mrs. John McClinton, of Lexington.

### INDIGESTION A CRIME.

Don't You Want a Keen Appetite and Perfect Health Once More?

It is a positive crime to suffer with the ills of indigestion, such as headache, backache, sleeplessness, nausea, and distress after eating, with despondency and nervousness, now that the guaranteed Mi-na stomach tablets can be obtained from W. S. Lloyd.

Use this remedy, and keep appetite, vigorous digestion, strong heart action, pure blood, nerves of steel and natural strength and health will be restored to you quickly.

Mi-na is entirely different from all other remedies that are recommended for the cure of indigestion, for it strengthens all the digestive organs and is not a mere digestive.

Ask W. S. Lloyd to show you the guarantee he gives with every 50 cent box of Mi-na. The remedy will not cost a penny unless it cures. 16-18

**Says Whiskey Men Lined Up  
Against Beckham In the Cities.**

General Percy Haly, the confi-  
dential adviser of Governor Beck-  
ham, said to a Leader representa-  
tive: "The Governor's policy had  
caused the big whiskey and liquor  
element in all parts of the State to  
line up against him, and the work  
they did could be seen in the re-  
sult of the vote in all the cities.  
Louisville, Lexington, Paducah,  
Covington and other cities rolled  
up big majorities against him, and  
plainly the work of the liquor men,  
and the Governor's vote had to be  
drawn from the rural districts.

**Mayor Combs Talks of Gov. Beck-  
ham and Whiskey Men.**

Mayor Combs, of Lexington, in  
addition to seeing the city and  
county go for McCreary by an  
overwhelming majority, had it  
"rubbed in" on him in his own  
precinct, which gave McCreary  
the largest majority of any pre-  
cinct in the county. Woodland,  
the Mayor's voting precinct, gave  
McCreary 214 and Beckham only  
60 votes—a majority of 154, which  
was a bigger majority than Mc-  
Creary received in any other pre-  
cinct in the city.

"How do you account for the  
vote?" was asked.

"Well, in the first place, Beck-  
ham had antagonized all the saloon  
men by his 'lid' policy and the big  
sporting and gambling element  
voted with them. This was natu-  
ral under the circumstances. On  
the other hand the temperance  
and prohibition element did not  
give Beckham credit for being  
sincere in the movement and many  
of them failed to support him.  
These did not stop to consider that  
Beckham had been sincere enough  
to turn all the saloon and whiskey  
men against him and had lost their  
port by reason of his policy.

**Heat on Tobacco Improves it Like Roasting  
Improves Green Coffee. Heat Develops the  
Stimulating Aroma and Taste found  
in Schnapps Tobacco  
and Coffee**

Three ways are used by farmers  
for curing and preparing their to-  
bacco for the market; namely sun-  
cured, air cured and flue cured.  
The old and cheap way is called air  
cured; the later discovery and im-  
proved way is called flue cured.

In flue curing the tobacco is taken  
from the fields and racked in barns  
especially built to retain heat and  
there subjected to a continuous high  
temperature, produced by the direct  
heat of flame heated flues, which  
brings out in the tobacco that  
stimulating taste and aroma that  
expert roasting develops in green  
coffee. These similar processes give  
to both tobacco and coffee the cheer-  
ing and stimulating quality that popu-  
larizes their use.

The quality of tobacco depends  
much on the curing process and the  
kind of soil that produces it, as ex-  
pert tests prove that this flue cured

tobacco, grown in the famous Pied-  
mont region, requires and takes less  
sweetening than tobacco grown in  
any other section of the United States  
and has a whole-some, stimulating,  
juicy, full tobacco taste that satisfies  
tobacco hunger. That's why chewers  
prefer Schnapps, because Schnapps  
cheers more than any other chewing  
tobacco, and that's why chewers of  
Schnapps pass the good thing along  
—one chewer makes other chewers,  
until the fact is established that  
there are more chewers and more  
pounds of tobacco chewed to the  
population in states where Schnapps  
tobacco is sold than there are in  
those states where Schnapps has not  
yet been offered to the trade.

A 10c. plug of Schnapps is more  
economical than a much larger 10c.  
plug of cheap tobacco. Sold at 50c.  
per pound in 5c. cuts. Strictly 10  
and 15 cent plugs.

**JOHN MITCHELL ILLUSTRATES.**  
President of the Miners' Union Tells  
a Good Story.

John Mitchell, president of the  
United Mine Workers, has been talk-  
ing about the various methods used  
at the mines for weighing coal. Of  
one method, a method of the past,  
he said:

"This method was long ago aban-  
doned on account of its unfairness.  
It was most unfair. The fist and  
pound method, in fact, was scarcely  
worse.

"The fist and pound method origi-  
nated, they say, in Scranton. A  
simple minded old lady ran a gro-  
cery store there. A man came in one  
day and asked for a pound of bacon.  
The old lady cut off a generous  
chunk of bacon, and then, going to  
weigh it, found that she had mislaid  
her pound weight somewhere.

"The man, seeing that there was  
about two pounds in the chunk cut  
off, said, hastily:

"'Never mind. My fist weighs a  
pound.'

"And he put the bacon on one side  
of the scales and his fist on the other.  
The two, of course, just balanced.

"It looks kind o' large for a  
pound, don't it?" asked the old lady,  
as she wrapped the bacon up.

"It does look large," said the  
man, as he tucked the meat under  
his arm. 'Still—'

"But just then the old lady found  
her pound weight.

"'Ah,' she said, in a relieved voice,  
'now we can prove this business. Put  
it on here again.'

IN ITS FOUR EDITIONS—its well known  
school to the story of many famous  
scandals. For about 100 years it has  
been used as the standard text-book  
of the preliminary litigation of  
Jury duty vs. Jury duty, or, to  
its proper name, the JENNINGS  
which arose out of the dispute  
of the property of William Jennings  
who died in 1798. That Disput-  
did not exaggerate is proved by the  
fact that the case was not finally  
settled until 1878, long after the  
novelist's death, and a spasmodic at-  
tempt to revive it, happily nipped in  
the bud, was made in 1893 in an  
action against Earl Howe, the heri-  
taw of old William Jennings.

**HOGS FORETELL WEATHER.**

In the country you may have no need  
of a better weather bureau than a  
drove of hogs. By their actions it is  
easy to tell the approach of a storm,  
a cold wave or a hot spell. When  
you see a sow going to her quarters  
to put her bed in order, picking up  
straw and leaves with which to ren-  
der it comfortable, mark it down  
that a northeast is coming and will  
continue for three or four days.—

Father—Is that young man capa-  
ble of sustained effort?

Daughter—Well, you ought to see  
him trying to color a meerschaum  
pipe!

**Detectives Here.**  
A disagreeable feature of the election here last Tuesday was the presence of a number of Federal spies or detectives. The presence of foreign detectives working in harmony with the local Republican leaders is very irritating to our Democratic leaders and has a tendency to break down the feeling of personal friendship. This espionage does no good but much harm, and we hope to see no more of it. —Winchester Democrat.

**MEMENTO OF 'FRISCO FIRE.**  
A great deal of melted and otherwise mutilated coin is being received at the mint by Superintendent Leach. Under the rule this goes in as bullion, which entails a great loss upon the citizen, especially in the case of silver, where the bullion value is about one-half that of the coin. Assistant Treasurer Paniz, who was sent out to assist Treasurer Jacobs in conducting the affairs of the subtreasury, has taken upon the matter with the authorities in Washington, and an effort will be made to have the fire coin redeemed at its face value where it is in a sufficiently good state of preservation for identification. — San Francisco Chronicle.

**ROMAN RELICS IN SCOTLAND.**  
Some interesting Discoveries Have Been Made at Melrose.

One of the most interesting contributions to "The Scottish Historical Review" deals with the excavations at the Roman fort at Newstead, Melrose, which are being carried out under the auspices of the Society of Antiquaries of Scotland. Owing to the nature and variety of the finds, and the care with which they are being recovered, and preserved, the work may well be considered one of national importance. James Curle, of Melrose, a distinguished Border antiquary, who contributes notes on some recent finds, says the most striking result of the work lies in the collection of objects from the Roman period which have been brought to light.

"The finds, for the most part, have been made in clearing out what would appear to be disused wells or rubbish pits. These have been found outside the fort, as well as within the ramparts. In depth they vary from 12 to 30 feet, and all of them are more or less filled with decomposed animal and vegetable matter, which has a marked preservative influence. Mr. Curle gives a detailed description of a finely preserved specimen of a bronze vase with a single handle. It stands 11 inches high, and it is conjectured, dates from the first century. The vase is illuminated except for the handle, which is of the workman's. No fewer than 14 pits have been cleared out in a field known as the Fore Ends, lying to the south of the fort. In one of these chariot wheels, three feet in diameter, were found, also a human skull, cleft by the blow of some sharp weapon. From another pit came a most valuable collection of armor, including a Roman brass helmet, a photograph of which Mr. Curle reproduces. The helmet is in a wonderfully good state of preservation. Mr. Curle considers it the most perfect object of the find. It covers the head and neck, and has a high projecting peak in front. The whole of the crown is covered with an embossed design, and an inscription, presumably the owner's name, is punctured on the rim. — Dundee Advertiser.

"Irish stew is a dish unknown in Ireland. Jews, say, as it is never heard of in Jewish cuisine, the Prussian blue does not come from Prussia, but from the red prussiate of potash.

"Galvanized iron is not galvanized; it is zinc-coated. Gargol is not the gut of cats, but of sheep. Kid gloves do not come from kid skins, but from lamb skins.

"Sealing wax has no wax in it, nor is it a by-product of the seal. Wraywood bears no relation either to wood or worms. Rice paper is never made from rice. Salt is not a salt.

"Copper coins are bronze, not copper. India ink is unknown in India. Turkeys come from our own country, from Turkey, never from India. — PERFECTLY SAFE.

cutta, India is dead. The cause  
of his death was cancer of the  
stomach. He was located at Je-  
berpore, India, and was removed  
to the hospital at Calcutta a few  
days before his death. He has  
been the missionary of the local  
church for four years. He leaves  
a wife and three children. They  
are at Hiram, Ohio. His body  
will be brought to the United States  
for burial.

**Saloon License Transferred Over  
Mayor's Veto.**

There was a special meeting of  
the City Council on Monday night  
for the sole purpose of consider-  
ing transfer of Hicks & Aulrey's  
saloon license to Chas. Manly.  
By unanimous vote the transfer  
was granted. Mayor Harris ve-  
toed the transfer. The Council  
by unanimous vote passed the  
measure over the Mayor's veto.  
The presumption is that the  
city will have one less saloon than  
there was prior to Sept. 19.  
We expect to see the time when  
all the saloons will be closed.

## THICKNESS OF EARTH'S CRUST.

Some Valuable Information Obtained by British Scientist.

Information of a valuable character concerning the thickness of the earth's crust and the intensity of the heat of the globe's internal fires has been obtained as the result of a series of investigations continued over a prolonged period by Hon. R. J. Strutt, F. R. S., the well-known British scientist and son of Lord Rayleigh, says the Scientific American.

By testing rocks of many kinds from all over the world, Mr. Strutt has been able to determine the percentage of radium present in the earth's crust. He has ascertained that the presence of radium, whether it exists in minute or large quantities, can be easily detected in all rocks of igneous origin, but the percentage is highest in granitic formations, while the basaltic rocks contain the minimum proportions of the element. He has also provisionally calculated the total quantity of radium present in each mile of depth of the globe's crust, from its uniform distribution, and estimates on this basis that not more than one-thirtieth of the total volume of the earth is composed of rocks which are to be found on the surface.

As a result of his mathematic deductions, he estimates that the depth of the earth's rock crust is approximately 45 miles. This deduction coincides to a certain degree with the calculations of Prof. Milne, the well-known seismologist, who has been engaged in investigations to the same end by the observation of the earthquake tremors. Prof. Milne concludes that at a depth of 30 miles below the earth's surface exist rocks whose physical properties are similar to those to be found on the exterior. Furthermore, as a result of his researches, Mr. Strutt, in agreement with the assumptions advanced by several astronomers, more especially Mr. Pickering, that the moon is not a "dead" sphere, but that it continues to possess volcanic energy. And moreover, he makes the startling statement that he is of opinion that the internal heat of that body is far in excess of that obtaining within the interior of our own globe.

## AMERICAN CLOTHES.

London Military Tailor Tells Us What He Thinks of Them.

G. B. Winter, the London tailor who came to America to design new uniforms for the army, was talking in Philadelphia about American clothes.

"I have only flattering things to say of the best American clothes," said Mr. Winter. "They don't differ at all from the best London clothes. They are made of pure, soft stuffs that fall in graceful lines. They are cut with propriety. They are worn with distinction. Hard things have been said here about English

clothes, but I am sure that those who said them spoke in ignorance. At any rate, I can only say of the best American clothes that they are among the finest clothes in the world."

Mr. Winter, his hands in the pockets of his well-cut coat, laughed. "I don't, you see," he said, "reply harshly. I am not like the young girl whom I heard a bookseller once tell about. A young man failed to attend a dinner, though he had accepted the invitation. He sent no word of excuse, but the next day he called and said to the daughter of the house: 'I only called, Miss Morris, to apologize for disappointing you last evening, but really I couldn't find the time to come. It—'"

"Oh, don't speak of it," the young lady answered. "We forgot about you entirely till after everybody was gone, when father happened to notice that the deacon on the sideboard and the box of cigars on the mantel had each something left in them."

Edith—Anybody you knew?

Mr. Grump—Now, barber, I only want to be shaved. I don't want my hair cut, dyed, singed or shampooed or my mustache waxed. I don't want a bath, hair invigorator, dandruff remover, or a facial massage.  
Barber—Are you troubled with corns or ingrowing nails, sir?

## HE REVERSED THE BIBLE.

Good Story Told of Prof. Riddle of the Revision Committee.

Prof. M. B. Riddle, of the Western Theological Seminary, Allegheny, Pa., has for many years spent his summers at Castine, Me. Prof. Riddle served at the time of the revision of the Bible on the American committee of revision, and his connection with that committee as well as his eminence as a theologian has made him a poked man

among the summer colony at Castine.

One day some years ago Prof. Riddle was walking along the wharf at Castine, dressed in old boating clothes and an old white sweater, waiting for the wind to breeze up so that he could indulge in his favorite recreation—sailing. He was smoking a pipe, as is his custom. One of the wharf hands at that time was Joe Hackett, a man about as distinguished among the people of Castine for his lack of biblical lore as Prof. Riddle was for his familiarity with it.

While Prof. Riddle was thus loafing around the wharf a stranger went up to Joe and said: "Who is that old fellow over there smoking a pipe?" Joe looked up to him in a surprised, but rather a patronizing look, and said: "Why—why—why, don't you know that man? Why, that is the man that reversed the Bible!"

That was quite a number of years ago, but among his friends Prof. Riddle has not outgrown his reversing the Bible.

The man who loves his work seldom wants for a job.

## LOOKING FOR INFORMATION.

But George Couldn't Just Explain to Her What She Wanted to Know.

"Well, dear, I see they have opened the doors." "What is that, George? Some new kind of music hall?" "No, dear. It isn't a music hall. It's a sort of gathering."

"Something like a carbuncle, dear?" "No, no. It's in Russia, you know. It's a triumph of progressive forces that marks a new era in the nation's life."

"Why, George, where did you learn to talk like that?"

"Sounded pretty good, didn't it?"

"It was splendid, George. Can't you say it again?"

"I'm afraid not. It can't be said twice in the same way—not impressively, you know."

"And to think, George, that at the wedding breakfast the other day when they called on you for a speech, all you could say was 'E-r-r-r' and then sit down."

"Yes, I remember something of the kind. But those things are all so silly. I can't talk that kind of nonsense, you know. There's nothing elevating about it."

"But, George, that Prof. Tomlins made a real funny speech, and they say he's over so serious and intellectual."

"Who, Tomlins? The fellow that told all those odd chestnuts? I suppose he'd spent a week getting up that fool talk. And you preferred him to your husband?"

"I didn't say so, George."

"But you meant it."

"You mustn't get angry, dear."

"I'm not angry."

"No, no, of course you are not. There, there, you are all right again. And now there's something I want to ask you."

"What is it, dear?"

"What's a dooms, George?"—Cleveland Plain Dealer.

## A CRASH AMONG THE RELICS.

The Professor Upset Many of Mrs. Parvencu's Little Pleasures.

It has never ceased to be a cause of regret to Mrs. Parvencu that she had the professor at her gathering of local literary lights.

"There's a teapot that was used by William the Conqueror," she announced, with pride, as all the visitors gathered about and discussed the prize in hushed tones of voice. "But, dear madam," said the professor, with whom truth is given preference to every other consideration, "they did not brew tea in England until some years after William I. came to these shores."

Mrs. Parvencu ignored the interruption, but the teapot was soon put away, and now it has another history.

"Here is a piece that one of the

Casars smoked in the ninth century," she declared, triumphantly, and she looked severely at the professor.

"But, my good woman," he declared, "tobacco was unknown then and for centuries after. Some one must have imposed upon you."

The pipe was put away with a slam, and from beneath a pile of silk patches in a sewing bag the angered lady produced a book.

"There," she announced, in a stern tone, "is a Bible that belonged to my great-great-grandmother. I hope that modern wisdom has not learnt that all were heathen in her time or that the golden rule was not discovered until the good old lady had gone to her reward."

But the professor looked judicially at the title page, and said the book was printed in 1886.—Tit-Bits.

## HAWTHORNE BUDS.

Hawthorne buds are known among English children as "bread and cheese," and are sometimes eaten by them. They have, however, poisonous qualities, due to the presence of calcium oxalate, and the other day a girl at Penrith died after eating some.

## THE EYES.

The effect of artificial light on the pigment of the iris is to make it paler. Also prolonged eye work will do this. Eyes never become quite blanched, like the hair, but they do fade, and very appreciably.

The Evidence Showed It But the Judge Didn't Believe It.

A certain judge is noted for the strict impartiality with which he arrives at decisions, even when his personal bias is strongly the other way.

On one occasion, having heard a certain famous case, he found himself impelled to give a decision repugnant to his own inclination.

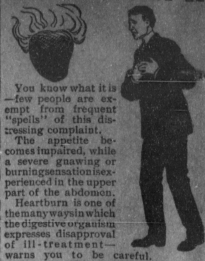

"Do you mean you think the defendant was not at heart a swindler?" demanded an intimate friend.

"Well," said Judge X—, solemnly, "I took that evidence abroad for a week-end with me and studied it. Then I brought it home and spent more time on it. Then I said in my decision:

"So far as the evidence shows, the defendant is an upright and honorable gentleman."

"So far the evidence shows," he repeated slowly and with emphasis. Then he leaned forward in his chair, placed a hand on the other's knee, and exclaimed, with an air of vindication: "But, my friend, I didn't say I believed it!"

## Heartburn

You know what it is—few people are exempt from frequent "heartburn." This distressing complaint.

The appetite becomes impaired, what a severe gnawing or burning sensation experienced in the upper part of the abdomen. Heartburn is a sign of indigestion, which the digestive organs in the stomach and bowels are unable to handle. It is a warning to be careful.

Dr. Caldwell's Syrup Pepsin

gives instant relief in all cases of heartburn and by toning and strengthening the stomach and bowels, prevents a return of the trouble.

DR. CALDWELL'S SYRUP PEPSIN is an invaluable remedy for all troubles arising from the stomach, bowels, liver and kidneys, and because of its purity can be used with impunity for both children and grown folks.

DR. CALDWELL'S SYRUP PEPSIN can be obtained in both dollar and half-dollar sizes from all druggists. Your money will be refunded if it does not benefit you.

## Too Much Trouble.

The Midway Club says Many of the leading farmers of this county have expressed their determination not to raise any more tobacco. They have been forced to do this by reason of the inefficient help and the tenacious system which they regard as very bad. They have found large crops a constant source of worry to them. Labor has been too

get and has demanded such enormous prices that tobacco raising has been well nigh unprofitable for the last two years. Many of our Vésailles said they had raised their last stalk of tobacco.

We believe that the example of these farmers will soon be followed by other tobacco raisers.

## And an Aged Sufferer Cured of Catarrh.

The Kentucky Remedy Co., Lexington, Ky.

Gentlemen—For the last seventeen years I have suffered from an aggravated case of catarrh in my head, for which I could find no relief. My hearing was badly impaired, there was a constant dripping of mucus in my throat and a nauseated feeling. I had dizzy spells, and flushes of fever. There was hardly a time, day or night, when I was free from headache or pains in some part of my body. My digestion was failing me and my kidneys were affected. They said I had rheumatism. I was troubled with constant pain off of the bowels and got no satisfaction from what I ate. My daughters thought that on account of my old age I would never find but as a last resort, I commenced to use Dr. Andes' Great Prescription, and thank God! after taking only two bottles, I can say I am a well woman. Every symptom of my former trouble has disappeared, and I feel ten years younger. I eat and sleep as well as I can. Thanks to this wonderful medicine. Though sixty-seven years old, I believe I am good for many more before I die.
